

Terminology [EN] | Wingame Creator

Basepath

The basepath is the URL on which the 360 ° tour is located

Node

A node is a 360 ° image. The panorama tour consists of nodes that are connected by hotspots.

Hotspot

A hotspot is the connection point between 2 nodes, the circle that leads to the next node when you click it.

In the case of the Wingame Creator, a hotspot is also the object that is hidden in the tour.
